Hazardous ingredients

REACH
All ingredients used in the manufacturing and construction of this product are compliant with the EU directive for the "Regulation of chemicals and their safe use" more commonly known as REACH -- EU directive EC1907/2006. *REACH stands for "**R**egistration, **E**valuation, **A**uthorisation and **R**estrictions of **CH**emical substances.* The key aim of REACH is to provide high levels of protection to human health and the environment. *More information can be found at: http://ec.europa.eu / environment /chemicals/reach/reach_intro.htm*

OekoTex
This product has been tested and successfully passed the Oeko-Tex 100 global standard which indicates that the product is skin friendly. *Look for the Oeko-Tex logo to make sure you are buying a skin safe product.* For more information on Oeko-Tex please visit *http://www.oeko-tex.com/oekotex100_public/index.asp?cls=02.*

Issue Date: 05.05.2015
Revision No: 0

GB04/62713 GB96/6458

Precautions for use
Before usage, inspect the glove for any - defects or imperfections. If a glove is ripped or punctured during use dispose them immediately. Wear an appropriate size and do not wear gloves that are too tight or too loose.

Storage requirements
Store in a cool; dry place which is away from direct sunlight and/or heat. Extended exposure to direct sunlight or excessive heat will reduce shelf life and resulting in fading, discoloration and cracking. Normal anticipated shelf life is 5 years.

Disposal
After the glove has been used it may be contaminated with infectious or other hazardous materials. Please dispose according to local authority regulations.

Fire notes
Gloves will decompose at high temperatures. Extinguish using water, CO2 spray or dry powder.

First aid
Remove contaminated gloves.
Skin contact: if an allergenic reaction occurs seek medical advice immediately.
Eye contact; rinse thoroughly with low pressure water. If any prolonged discomfort, seek medical advice immediately.
